The Honorable Senator Gene Yaw
175 Pine Street
Suite 105
Williamsport, PA 17701

Dear Senator Yaw:

My name is Justin Bryerton, I have recently purchased the Black Forest Inn located in Lycoming County, I am writing to ask for your support in bringing the UTV Pilot Program to our area.

As you are probably aware this initiative would open up trails and lands to UTV riders across several counties. These connections and trails are vital to allowing riders access to a trail system that is unlike any the area has ever seen. Opening these connections will significantly increase tourist traffic during summer months, and open new revenue streams for rural businesses like the Black Forest Inn. Supporting this pilot program will provide stability and economic opportunities to our rural communities, that have previously been dependent on wild game hunters coming to our area during the fall and winter months.

I appreciate your time and consideration on this matter and ask that you please respond and let me know if there is anything I can do to support this initiative coming to our area.

Sincerely,

Justin Bryerton

The Black Forest Inn
